

Allie Bennett

Mgr. of Economic Development & Member Services

Northeast Missouri Electric Power Cooperative

Allie Bennett is the Manager of Economic Development and Member Services at Northeast Power, a transmission electric cooperative serving member-distribution cooperatives in northeast Missouri and southeast Iowa. Allie was born and raised in Monroe City, Missouri. She attended college at the University of Missouri and achieved her bachelor's degree in agriculture. She has also earned her master's and doctorate degrees in administration. In 2016, Allie began her electric cooperative career at Macon Electric Cooperative as the Marketing and Communications Manager. In 2020, Allie joined Northeast Power in her current position, providing value-added services to the member-distribution cooperatives served by Northeast Power and working in coordination with local, statewide and national economic development organizations to collaborate on a number of efforts.
